

# EDGES

## Three Sides of the Same Sea

**We seek a visual artist  
to participate in the making of an  
exhibition/installation**

**Where:** Neskaupstaður in East Iceland.

**When:** April 26-28 & May 30–June 5 2011.

**What:** Visual artists from East Iceland, Donegal in Ireland and Vesterålen in Norway work together on the 'Edge of the Imagination' project, the third exhibition of independent events in the project *EDGES - THREE SIDES OF THE SAME SEA*. It's main goal is to seek new ways to combine cultural heritage and contemporary art, both within and between these three coastal regions. The challenge is to devise new ways of advancing a sense of community and an appreciation of local heritage in a global context and give local artists a change of working on their art in their own region.

**Who can apply:** Young active visual artists (age 20-35), either from or living in Vesterålen/Donegal with experience in the fields of visual arts.

For more information about the project ([www.menningarrad.is](http://www.menningarrad.is)/[www.minjasafn.is](http://www.minjasafn.is)) contact Signý Ormarsdóttir/ Elfa Hlín Pétursdóttir from the Cultural Council of East Iceland (phone +354 471-1412 and email: [menning@menningarrad.is](mailto:menning@menningarrad.is)).

**Deadline for an application is March 11th 2011.**

*EDGES Three Sides of the Same Sea is an international project carried out by the cultural councils in East Iceland, Donegal in Ireland and Vesterålen in Norway.*
